God has revealed incredible events that will occur in the heavens, in his Word, merely a year before these events will start to play out. God's Word is reliable and true and in it, God has declared the end, right from the beginning.

In this video we study the cosmic implications of the prophecy and vision that was sealed up by Daniel, in Daniel 9:24 and how this applies the sign of Revelation 12. The information in this video is very controversial and will have a profound impact on your world view, but God has revealed this to us, at this specific point in time to show us what He will be doing in the months to come. These events that were hidden by God in his Word, and what is being revealed to us, gives us understanding into how the events that are described in Revelation, will be brought about.

As Stellarium uses a year 0, it can be a bit confusing when looking for this in Stellarium. The dates to use in Stellarium then should make use of the year -3914 to account for the additional year.

This is an updated version of the second video. For some reason Jupiter was not rendered in certain scenes in the original upload. This version corrects that.
